Plastering Redefined

Ramco Super Plaster

A superior, hassle-free alternative to conventional site-mixed plaster which contributes to increased durability.

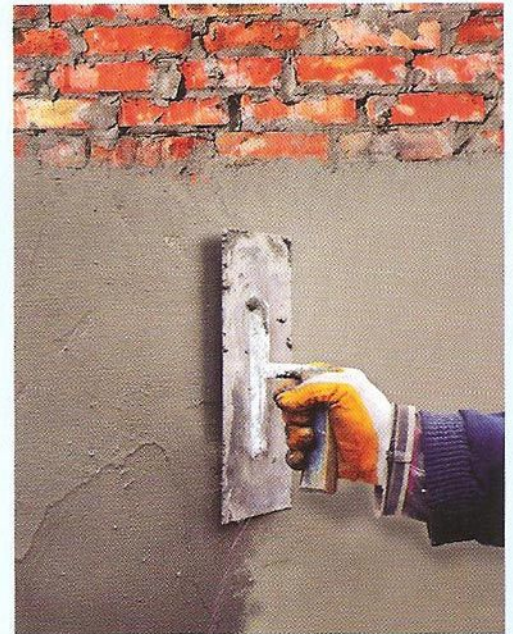

BENEFITS

- Pre-mixed with graded sand
- Uniform and better finish
- Reduction in cracks
- Enhanced durability
- Easy application – no specialized skills required
- Hassle-free
- Better pot life

FEATURES

- Colour : Grey
- Binder : Portland Cement
- Additives : Water soluble to improve workability, water retention, durability and crack reduction
- Coverage : 18-20 sq.ft. per 40 kg bag @ 12 mm thickness* (approx)
- Coat thickness : 10-18 mm
- Pot life : 1 hour
- Water demand : 7-8 ltrs per 40 kg bag

*under standard conditions

APPLICATION

Step 1: Pour the contents of the bag on to a flat tray

Step 2: Add 7-8 litres of water and mix thoroughly using a spade

Step 3: Ramco Super Plaster is ready for use. Apply using a normal trowel. For longer life of plasters, do not over trowel. For concrete surfaces, prime the surface with cement slurry before applying plasters.

For detailed information on projects and testimonials of customers who have used Ramco Dry Mix products, please visit our website www.ramcocements.in

PRECAUTION: Ramco Super Plaster is non-hazardous, but due to the cementitious nature it is advisable to wear a filter mask and protective coat. In case of eye contact, wash copiously with water and if irritation persists seek medical treatment.
